Front End Developer

I am a full-stack developer with a background in music education and physics. I use clear and direct communication to efficiently address and solve problems. My passion for music and working in a collaborative environment has further enhanced my skills in problem solving, teamwork, and communication.

Skills

Javascript | CSS | HTML | Python | MongoDB | PostgreSQL | Express | Node | React | AWS | MS Office

Projects

Connect 4

- A simple browser-based version of the classic game where two players can play against each other. Made with HTML, CSS, and Javascript. Deployed on GitHub Pages.

The Common Kitchen

- An online forum for sharing and viewing recipes. Node and Express are used to handle HTTP requests and MongoDB is used to handle backend data.

Noah EMR

- A veterinary Electronic Medical Records site designed for practices to keep track of clients' pets and upcoming and past services. This is a group project with 2 other students from General Assembly. This application uses Python and Django to handle HTTP requests, interacts with a PSQL database, and it styled using Bootstrap.

SoundBoard

- A MERN stack social-media application for sharing music. This site is built in React which provides a smooth user interface. Audio files and photos are hosted on Amazon Web Services S3.

Experience

Guitar Instructor | Portland, OR | June 2018 - Present

- Provide one-on-one instruction in jazz, blues, rock, country and folk genres tailoring each lesson on clients interests and proficiency.
- Schedule and coordinate times and lesson plans with 14 clients.

Premier Solar NW | Solar Installer | Portland, OR | Dec 2020 - Jul 2021

- Installed photovoltaic (PV) systems in accordance with codes and standards, using drawings, schematics, and instructions on residential properties.
- Identified methods for laying out, orienting, and mounting modules or arrays to ensure efficient installation, electrical configuration, or system maintenance.
- Identified electrical, environmental, and safety hazards associated with photovoltaic (PV) installations.
- Trained 3 new employees on the installation process and working safely on rooftops and ladders.

Xinh Xinh Vietnamese Bistro | Line Cook | Portland, OR | Dec 2018 - Apr 2019

- Ensured freshness of food and ingredients checking for quality, tracking items while rotating stock.
- Collaborated on efforts in implementing a food cart providing vegan menu items to consumers.

Kay's Bar | Line Cook | Portland, OR | Jul 2017 - Jul 2018

- Prepared specialty food items during rush hour following specific methods to allow efficiency of distribution amongst customers.
- Responsible for inspecting and cleaning food preparation areas, such as equipment and work surfaces, or serving areas to ensure safe and sanitary food-handling practices.

Education

Software Engineering Immersive | General Assembly | Remote

Bachelor of Arts in Physics | Lewis & Clark College | Portland, OR
